What is the Artyii Invitation?

The *Artyii Invitation* seeks to create an extensive network of credible artists online through word-of-mouth.

Asia is home to many enormously talented artists who are left behind due to limited gallery space and often do not have a credible, artist centric internet platform to showcase and sell their art.

With the *Artyii Invitation*, you are able to introduce talented and trustworthy artists to Artyii. We will do our part in marketing them online and taking care of all logistics matters when their art sells. In addition, you will be rewarded with 3% of the artist's selling price. You are able to recommend as many artists as possible.

What kind of artists are we looking for?

All emerging artists in Asia are invited. This refers to artists at the beginning of their artistic careers. Artists are not required to hold an Asian nationality. As long as they are living in Asia and creating fantastic art here, they are definitely welcome. On top of that, their art prices should not go beyond USD 2000.

Transparency

All artists who you recommend will be tagged with your personal/business name on his profile page.
